

5-7

Recycling Presentation

In this activity we'll be working on a presentation all about recycling. Think about the different kinds of rubbish that we produce in our everyday lives.

Can you think of any ways that we could reduce the amount of packaging that we buy when we go shopping at the supermarket? For example, do you think that some products use too much packaging? We have listed a few ideas below to help you get started.

You may find it useful to draw up a table like this:

Item	Comments
Crisp packet	
Cereal box	
Box of teabags	
4 pack of baked beans	

Now try writing a short presentation about recycling to present to your class which will help to show the rest of your class that recycling is a very important, but very easy thing to do - at home, at school or at work.

Teacher's Information: This activity may be linked with English KS2, Geography KS 2, PHSE & Citizenship KS1.
