Name:

Class:

Global citizenship and the rubbish crisis

Task

Working as either individuals or small groups, you have been tasked with creating a brief to present to the UN. You need to think of ways to encourage global unity in creating a less wasteful world.

You need to think about at least one of the following themes:

- Waste Preservation
- Resource Management
- Wealth Distribution
- The Circular Economy

.....

Within this brief, you must be considerate of cultural and religious differences and highlight how your plan can be adapted for at least 2 different cultures and/or religions. As this is a project to encourage worldwide unity, the plan must have significant reference to inclusivity throughout.

This can be presented in whichever way you decide.
